Schneider Electric develops connected technologies and solutions to manage energy and process in ways that are safe, reliable, efficient and sustainable. The Group invests in R&D in order to sustain innovation and differentiation, with a strong commitment to sustainable development.

Our mission is to help businesses achieve the energy challenge - keep global warming under a 2°C limit - while achieving better operational efficiency. We put ethics and responsibility at the center of our interactions with our customers, partners and suppliers; with our employees and the communities where we operate. We want to be a corporate citizen a responsible employer. In new economies, we foster solutions to provide reliable energy to the 1.3 billion people that do not have access to energy. In mature economies, we address the hundreds of millions of people living in fuel poverty.
